- Tear Strength: BS4303 Severe Contract Grade
- Tensile Strength: BS2576 1972 Severe Contract Grade
- Extremely Stain Resistant
- Flame Retardant: BS5852 Crib 5

Cleaning and Care

Wipe frequently with a damp cloth to maintain the appearance of the fabric. Most stains can be removed with cold/warm water and a clean cloth. Use cold water when treating stains caused by bodily fluids. If soap based cleaners are used, all soap residues must be rinsed from the fabric. Can be cleaned with mild hypochlorite solutions (half a cup of haousehold bleach with 5 litres of water) or mineral spirit. Can be steam cleaned in situ.
