

Eclipse

FABRIC CHOICE

Heritage

Our range of Eclipse fabrics are fire retardant, have high standards in durability and stain resistance and are available in a range of colours to suit your requirements.

Example of Brick Astrakhan

ASTRAKHAN - Soft Textile

Designed for intensive use, the superior quality of the microfibres means that Astrakhan is stain-resistant, easy to clean, hard wearing and extremely soft to the touch.

Cleaning and Maintenance

- Stains from food and drink can be removed easily with neutral water-based solvents.
- Grease / oil stains can be removed with a solution of 10% spirit and 90% water.
- Rub the stained area lightly, using circular movements, until the stain disappears
- Pat dry with a cloth - do not use a drier, then brush lightly in the direction of the pile.
- Any creases can be eliminated with a little steam application.
- Only use water based solvents - never use strong or chemical solvents, do not dry clean.

FLAME RETARDANT

ANTIBACTERIAL

FIRENZE

BRAVA - Soft Vinyl

Luxurious coated upholstery fabric combining superior protection with elegant style, safety and quality.

- Anti fungal, antibacterial and antimicrobial protection.
- Minimal maintenance required.
- Flame retardant to Crib 5
- Coated with PERMABLOK3® an advanced vinyl protection from Spradling International

PERMABLOK3® is a proven vinyl protective coating that has been designed to create a tough, effective barrier against three major problems in the education, healthcare and hospitality environments – germs, abrasion and stains. PERMABLOK3® not only guards against stains, abrasion damage and the surface growth of fungus, mould and mildew spores – it also provides superior antimicrobial and antibacterial protection by resisting gram negative and gram positive bacteria (including MRSA), filamentous fungi and yeast.

Example of Bordeaux Brava with Black Neoprene

Care & Maintenance

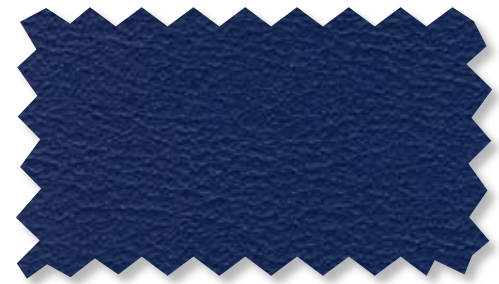

Clean using a damp, soapy cloth or sponge, and then rinse with cold water and wipe dry. Spills and accidents require immediate attention for best results. In many cases, stains such as coffee, tea, cocoa, ketchup and blood, may be cleaned simply with warm water alone. Stains from chemical colourings such as ballpoint pens, dyes and food colourings should be cleaned off as soon as possible to avoid long-term staining. If the stain is allowed to set, more concentrated cleaners may be required. Generally speaking, always start with the mildest cleaning agents first. Never use harsh powdered abrasive cleansers or steel wool.

SCHWARZ

BORDEAUX

KOBALT

PORT

BALTIC

MOCCA

Flexible Neoprene

This stretchy, breathable fabric is used in conjunction with the Brava vinyl in specific areas to ensure flexibility and enhance the benefits of pressure care cushions.

Cleaning and Care

Washable at 60 °C. Suitable for dry cleaning.

- Anti-bacterial
- Anti-fungal
- Fireproof: BS 7175 Ignition 0.1 and 5.
